Custom Solutions
SUMMER 2007

TO: All Custom Plus Distributing Dealers, *Current and Future*

FROM: Bob Oliver, Owner

DATE: June 2007

Hello! Thank you for taking a few minutes to look through our Summer 2007 Home AV catalog. We've modified our approach a bit from last year's Fall edition, bundling certain products in a way that makes more sense. I hope you enjoy the new look, the new products and the new information in these pages.

On top of that, we want you to know **Custom Plus Distributing** has doubled our focus on product trainings this year. We now schedule regular trainings to take place online or in-house at least once each month – call or click us up on the web to see which product line is next on the calendar!

Custom Plus continues to be the leading distribution company in the region by providing top-notch support, technical expertise, and the most impressive product lines available in our industry.

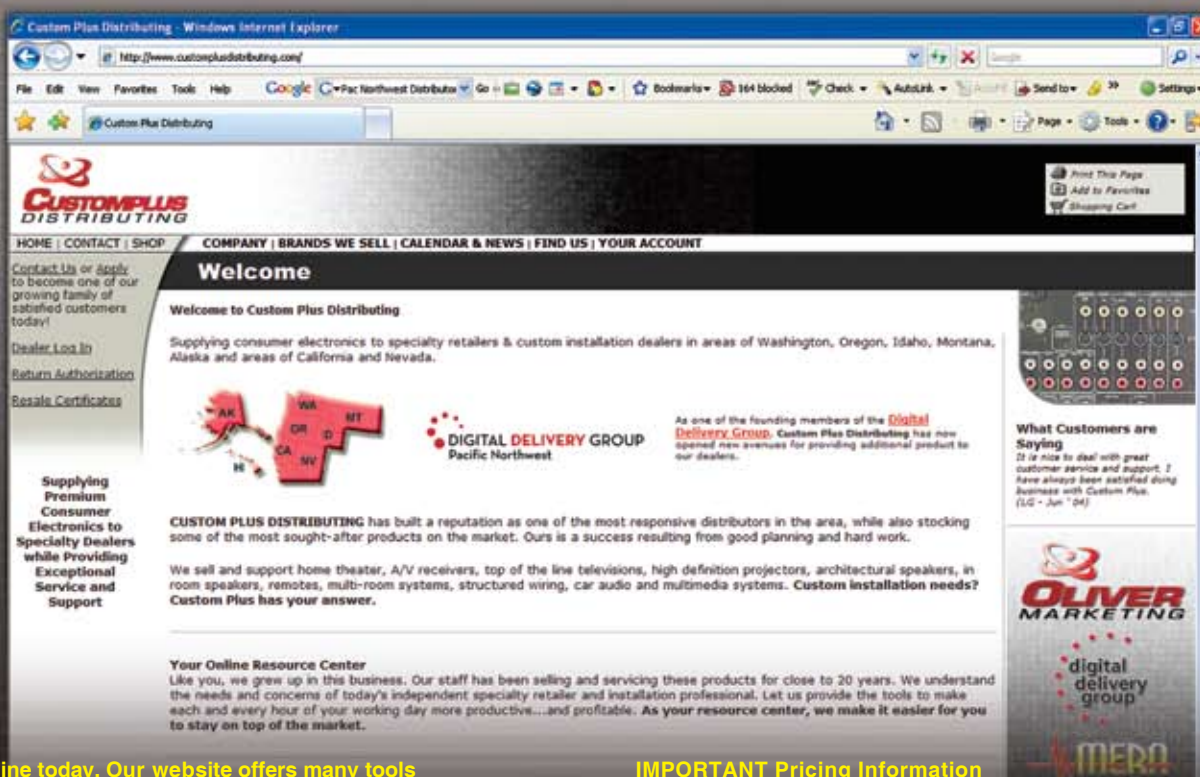

A great contributor to our growth has been our founding membership of the **Digital Delivery Group**. This organization truly opens new doors and opportunities as we embrace the future of our industry – integration and convergence.

If you have any thoughts or ideas about how we might improve on this catalog – or if you want to just come by for a visit – please let us know! We're always happy to hear from our dealers in the trenches.

Thanks and good luck in the months ahead!

Bob Oliver

Custom Plus Distributing is your One-Stop-Shop Solution for all Home Installation needs.

home automation • LCD televisions • battery backups • plasma mounts • wireless touch panels • digital entertainment centers • HD projectors • subwoofers • kitchen entertainment consoles • automated lighting control systems • IP addressable power units • in-wall subwoofers • HDMI cables • learning remotes • surge protectors • motorized mounts • projection screens • plasma televisions • wishbone cantilever mounts • in-wall theater speakers • HiDef DVR • power filters • structured wiring • volume knobs • amplifiers • whole-house automation programs • DVD players • bookshelf speakers • satellite radio units • extended warranties • speaker wire • wifi remotes • distributed audio

If we don't have it, are you sure you need it?

Let's not forget all the things you ***don't*** see

From the obvious plasma mount to the last minute speaker wire, the in-wall subwoofers to the programmable remote controls, and everything else you don't see...

Custom Plus Distributing takes care of you.

User Interfaces

Via! Panels

Ease & convenience of one-touch access to all home electronics systems from one room or on the go throughout the house. ELAN's powerful lineup of award-winning interfaces encompasses a wide range of control, from the simple to the sophisticated.

Via!2 8.4" Wireless Color Touch Panel

Feature-packed wireless controller for any Home Theater. Sleek, light-weight, bright LCD allows for large, user-friendly button layouts. Control TVs, DVD players, AV receivers, surround sound processors, screens, lifts, lighting, window treatments and more all from the comfort of your seat!

Via!284 MSRP \$2,760

Via! 6.4" & 4.0" In-Wall Color Touch Panel

The award winning Via! graphical user interface is a full-color, easy-to-program LCD touch panel that can be used to control up to 20 A/V components and whole-house systems such as lighting, temperature and security. Now available in seven different trim plates and over 70 selectable screen motifs, each panel can be designed to match the decor of any room!

Via!64 MSRP \$1,700

Via!40 MSRP \$850

Via! Valet 6.4" Tabletop Color Touch Panel

With the same functionality of the In-Wall version, the Valet provides full control anywhere it is mounted. Ideal for desktops, countertops or under cabinets, the Valet is a convenient source for news, weather and other tv broadcasts. The screen adjusts 180° back-to-front and 270° side-to-side, providing the best viewing angle. The Valet also folds flat against its base when not in use.

Via!Valet64 MSRP \$1,999

Ole' Film Interactive Touchpad

Enter a whole new era of customized multi-room control with the CEDIA Award-Winning, world's first and only Film Interactive Touchpad. Ole' is a breakthrough user interface that marries the magic and beauty of touch screen technology, the simplicity of a keypad and the dynamic interaction of a graphical organic LED display to bring a whole new world of control.

Ole' Film Families

Ole' Keypad Layouts

13-Function Layout 17-Function Layout 25-Function Layout

Not a touch panel...much more than a traditional keypad. Ole' is a completely new kind of in-wall interface that combines all the speed, response and graphics of an LCD touch screen with the simplicity and incredible price of a keypad.

Ole' Wall Frames

Z-100 Intelligent Keypad

Offers advanced IR control of any system and 12 AV sources in a single-gang Decora-style design. The Z-100 is a learning keypad and compatible with virtually all IR controllable systems. Features bi-colored LEDs that provide feedback for source select and music detect.

Z100 MSRP \$220

100WPC Electronic Volume Control w/ Override. "Keypad-Type" look with low profile buttons, mini-LEDs that provide discrete and easy to see volume feedback. Page and override levels, built-in IR receiver, remote control included.

Structured Wiring

Spanning nearly 60 pieces from wire management centers to telephone, data and video distribution hubs, ELAN offers one of the most comprehensive lineups of Structured Wiring products available. To make things a bit simpler, we've packaged some popular structured wiring groupings to help for the next job: *Good, Better, Best, Beyond.*

GOOD: Provides distribution of basic telephone and CATV services

- Small enclosure provided limited expandability
- Four CO lines to six phones, CATV to four TVs
- No audio option
- Package includes:
 - (1) E10 10" Enclosure w/ built-in 19-space grid
 - (1) C10 Enclosure Cover
 - (1) VTH464 Video Telephone Hub, distributes 4 telephone lines to 6 locations
- GOODSW MSRP \$115

BETTER: Provides distribution of basic telephone and CATV services

- Medium size enclosure provides expandability
- Four CO lines to six phones, RJ31X
- Amplified video distribution (CATV/Off-Air) to six TVs
- Optional High Speed Data Distribution
- Optional whole house music, paging and door chime, and door communications
- Package includes:
 - (1) E18 18" Enclosure w/ built-in 68-space grid
 - (1) C18 Enclosure Cover
 - (1) AC4 Duplex Electrical Outlet Box
 - (1) TH46 Telephone Master Hub w/ 110 punch-down connectors for wall plates
 - (1) VDA16B Video Amplifier, 1x6 bi-directional RF
- BETTERSW MSRP \$223

BEST: Provides distribution of advanced telephone, high speed data and HDTV/CATV video services

- Large enclosure provides maximum expandability
- Four CO lines to eight phones, RJ31X, surge protected telephone distribution
- Amplified video distribution to more television locations (CATV/Off-Air)
- High Speed Data Distribution
- Optional whole house music, paging and door chime, and door communications
- Package includes:
 - (1) E36 36" Enclosure w/ built-in 140-space grid
 - (1) C36 Enclosure cover
 - (1) TH31SRG Telephone Master Hub w/ Surge Protection and RJ-31X for connection to alarm systems
 - (1) TH48 Telephone Expansion Hub, allows the addition of 8 more telephone wall plate connections
 - (1) DH8 8-Port, 100 Base-T Data Distribution Hub w/ 8 RJ-45 jacks for the termination of CAT5 data lines
 - (1) VDA38B Broadband-HDTV Video Amplifier, 3x8 bi-directional RF
 - (1) VH8 8-way Video Hub
 - (1) AC4 Duplex Electrical Outlet Box
- BESTSW MSRP \$709

BEYOND: Whole house music, paging & door chime with communication features, in addition to all the features found in the BETTER/BEST Packages

- Audio & communications package includes whole house music, paging, door chime, and door communications
- Door station with Rough-in Bracket and Plate
- Four rooms of Mono sound with 6.5" ceiling speakers
- One room of Stereo sound with 6.5" wall speakers
- System is expandable by adding more speakers and volume controls
- Package includes all the components in the BETTER/BEST packages, plus:
 - (1) MAC24 Music and communications distribution center: connect up to 24 speakers; whole-house paging & door chimes, door station communications, phone-to-phone intercom; uses existing stereo receiver and touch-tone phones
 - (1) DS1550 Door communications kit
 - (4) MC650C 6.5" 50W single ceiling two-way speaker
 - (4) VMO Volume control w/ override
 - (1) MC650W 6.5" 50W In-Wall 2-way speaker (pair)
 - (1) VSO Stereo volume control w/ override
- BEYONDSW MSRP \$2,667

Professional Series Plasma TVs

Combined with the now common feature set of Panasonic displays — High Definition, superb motion filters, outstanding color output — the Professional Series also provides versatile functions, easy expandability, and advanced specifications. With the ability to be positioned vertically* and the optional addition of touch panel technology, the Professional Series is well suited for a multitude of commercial applications. *The TH-50PF9UK or TH-37PH9UK cannot be positioned vertically.

TH-50PF9UK 50" 1080p HD Display

Add a 5-year warranty to your Plasma, and you aren't just buying security...
You're buying piece of mind. (RepairMaster, pg 31)

Model **W,H,D (inches)** **MSRP**
TH50PF9UK 47.6, 28.5, 3.7 \$3,495

- 50" 1080p HD Plasma Display
- 5,000:1 Contrast Ratio
- Component Input Slot Standard
- PC & Serial Fixed Terminals
- Equipped with 3 interchangeable slots, 1 of which is open to start.
- 1920x1080 Resolution
- 4,096 Steps of Gradation

DVI-D Terminal Board

Connects a PC or other compatible digital equipment that outputs digital RGB signals (DVI-D compliant). Supports HDCP. TY-FB9FDD is compatible with UXGA/WXGA signals.

TY-FB9DD (for PF series) \$NA
TY-42TM6D (for PH/PS series) \$NA

Known for beautiful hand-made cabinets, award winning sound, and its pioneering efforts with THX™, Snell enjoys its place among the best home theaters and music rooms in the world. Innovative engineering, unique in-house cabinet making, and .5dB system tuning have always given Snell its performance edge.

Snell's mission remains unchanged...

Design and handcraft premium loudspeakers that sonically and visually integrate to the home environment.

The Snell Difference over three decades designing and hand-assembling fine loudspeakers

Handcrafted Elegance

Unique among loudspeaker manufacturers, Snell builds the enclosures and assembles our loudspeakers entirely by hand. The result is superior products of lasting value thanks to Snell-developed techniques that insure superb consistency as well as superior acoustic accuracy.

Parts Cut with Precision

Computerized routers cut cabinet panels with almost-microscopic precision. The resulting fine tolerances guarantee accuracy and lasting integrity. It is but a contemporary expression of the "measure twice, cut once" mentality that distinguishes the true artist in wood.

Hand Assembly of Cabinets

Skilled woodworkers assemble the cabinets. They take exceptional care to square all panels, seal every joint tightly, and make all corners sharp.

Matched Grain Cabinets

As do other examples of fine furniture, Snell enclosures feature grain-matched surfaces. We cut our panels to reveal the distinctive patterns of the finest hardwoods and then painstakingly match these patterns for left and right speaker cabinets. This reflects both our own standards and your appreciation of the cabinetmaker's art.

In-Room Cabinet Speakers

The Finest Drivers

Our loudspeaker drivers come from the finest world-class specialists. Most are from Europe (Peerless, Audax, and Vifa), others are from American sources including our parent company, driver specialist Boston Acoustics.

Hand Made Crossover Networks

We build our crossover networks in-house by hand. This maintains the quality we demand and allows for our unique 1/2 dB tuning technique.

Final Assembly

Everything – enclosures, crossovers, and drivers – come together in the final assembly area. Here, workers take the time to assemble your system with care and pride. After a final round of QC checks, each loudspeaker system is packed and shipped to your dealer.

1/2 dB Tuning

At the prototype stage, we make every effort to get exactly the right sound from our loudspeakers. All these efforts would be wasted if we couldn't match the prototype's sonic characteristics in every production system. Through a laborious Snell-developed process called "1/2 dB tuning," we hand adjust the crossover network of every system so that it precisely matches our prototypes.

SOLITAIRE10 10" 1250W 11.5" Cube **MSRP \$1,550**

The HRS Series Subwoofer — NEW!

The entry level Sunfire Subwoofer, featuring single drivers & unbeatable value.

The High Resolution Series is the newest development from the company that brought you the original small box, high power subwoofer more than a decade ago. Building on Sunfire's patented and award winning True Subwoofer™ designs, HRS-series subwoofers pair extremely powerful amplifiers with impossibly small cabinets.

Featuring Frequency Filtration Design™ — a new spectral balance/sonic signature that sounds much better than the previous D-Series and has an extended frequency response up to 110Hz — the HRS-Series Subs produce massive amounts of deep bass using extra large magnets and long-throw, audiophile grade drivers. Piano black gloss finish standard. White finish available in the 8" model.

HRS12 Sub	12" 1000W 13.5" Cube.....	MSRP \$899
HRS10 Sub	10" 1000W 11.5" Cube.....	MSRP \$799
HRS8 Sub	8" 1000W 9.75" Cube.....	MSRP \$699

Amplifiers

TGA-7400/7200

7-Channel Tracking Downconverter Power Amplifier

Whether enjoying a string quartet or an action-thriller, the TGA-7400/7200 delivers seemingly endless amount of what is wanted most...power. Both amplifiers feature one of the smallest, coolest running chassis on the market today, and they are no larger than a typical stereo amplifier. Available in black or platinum.

TGA7400S/B 7CHx400W (pictured)MSRP \$4,449
TGA7200S/B 7CHx200WMSRP \$3,250

TGA-5400/5200

5-Channel Tracking Downconverter Power Amplifier

A true, no-holds-barred amplifier featuring the incredible performance of five channels and the exclusive Tracking Downconverter technology. Even the entry level TGA-5200 delivers more power and performance than most amps with far bolder price tags. Each amplifier is a true, premium, high-performance product. Available in black or platinum.

TGA5400S/B 5CHx400W (pictured)MSRP \$3,899
TGA5200S/B 5CHx200WMSRP \$2,750

Cinema Ribbon Speakers: XT Series

XT Series is a limited production, luxury performance line whose products are designed for multiple applications but are united for just one purpose:
**combine compelling designs with
equally compelling performance.**

Cinema Ribbon Trio

450W On-Wall Cinema Loudspeakers

The Trio line is purpose-built for on-wall mounting and matching to a flat panel video monitor. The enhanced performance versus the Duo line is courtesy of one additional driver in the left and right channel speakers *and* two additional drivers for the center channel. This power, combined with the benefits of High Back-emf drivers and cabinets featuring rosewood veneers covered with seven coats of hand applied lacquer, make the Trios the singular choice for any serious Home Theater devotee.

CRS3 L/R 5.8" x 24.0" x 3.75" (WxHxD)MSRP \$1,000ea
CRS3 Center 28.0" x 5.82" x 3.75" (WxHxD)MSRP \$1,250ea

Cinema Ribbon Duo

400W Premium Monitor

The Duo is a powerhouse delivering the clarity and output of a 6-foot tall speaker...yet stands at about 8-inches. The 4.5" side-firing woofers deliver an incredible 115dB of output from the smallest cabinet in their class. Sonic Hologram Imaging takes place when the output of the two 4.5" side-firing woofers interact with the 6" front firing ribbon. As alluring as the Duos may be, Sunfire warns us that they are not for the faint of heart — big things come in small packages.

CRM2 L/R 5.5" x 8.25" x 6.0" (WxHxD)MSRP \$1,600pr
CRM2 Center 6.0" x 17.0" x 3.25" (WxHxD)MSRP \$800ea

SubRosa In-Wall Subwoofer: XT Series *Coming Soon*

2700W Power Handling In-Wall or On-Wall Subwoofers

The SubRosa In-Wall subwoofer uses StillBass anti-shake technology, which features the patent-pending IBEAM anti-shake device. As a result, the SubRosa combines a powerful subwoofer design with the vibro-tactile IBEAM to produce prodigious amounts of bass while virtually eliminating destructive wall vibrations. The low-profile High Back-emf 10" woofers are 30% slimmer than those found in non-XT Series in-room subwoofers.

SRA-2700EQ 2700W TDC Amplifier

The efficient, cool-running design allows for a slim form factor that easily integrates into the home's AV equipment cabinet without overheating any other components. Using the supplied calibrated microphone, the integrated auto room-correction "listens" to the room response then tailors the SubRosa signal to match.

SRA2700 2700W, 7-Band EQ\$Packaged Above
Amplifier packaged with both In-Wall and On-Wall SubRosa models

SRS210R.....MSRP \$3,500
On-Wall Flat Panel Subwoofer System Ebonized Rosewood cabinet, perfectly matching Cinema Ribbon Trios. Includes SRS-210R complete, preassembled subwoofer (including baffle and grille) and SRA-2700EQ amp.

SRS210W.....MSRP \$3,000
In-Wall Subwoofer System Includes painted black SRS-210WC cabinet for rough-in and separate SRS210WB baffle and grille assembly for trim-out. SRA-2700EQ tracking down-converter amp also included in system, see specs below.

SubContractor Series

Finally! An In-Wall Sub that works and sounds as good as a top-of-the-line Velodyne Sub is *supposed* to sound...

The SC-IW is the first in-wall to fit flush in a 2x4 studded wall and deliver reference quality performance. The driver fires vertically within the wall for maximum throw.

- Fits flush in a standard 2x4 studded wall
- Easy to install — two box system for new construction or retrofit
- Connects with conventional speaker wire
- Amazingly deep, powerful bass performance with minimal wall vibration
- Includes standard grill for easy installation & field servicing, & a designer-friendly 5" high grill
- 3" Dual Layer inner/outer wind voice coil
- Woofer: 4" x 14" rectangular driver
- Frequency Response (+/- 3dB): 22-120Hz
- 2 year warranty

SC-IWMSRP \$999

Unique T-shaped driver fires vertically in wall giving it incredible output with low distortion and minimal vibration.

SubContractor Series Standard Subwoofer

- Front-firing, sealed cabinet can be placed down-firing (feet included)
- Small and shallow, making it easy to conceal
- Connects with conventional speaker wire
- The matched SC-1250 amplifier can power one or two subs simultaneously
- Dimensions listed by inches HxWxD

SC-8 10³/₄ x 10¹/₂ x 9¹/₈ MSRP \$399

SC-10 12⁷/₈ x 12³/₈ x 9¹/₂ MSRP \$599

SC-12 14³/₄ x 14³/₈ x 10¹/₈ MSRP \$799

SC-15 18³/₈ x 18 x 13³/₈ MSRP \$999

SubContractor Series 1250 Amplifier

SC-1250.....MSRP \$999

- Incredibly easy to install and configure
- 1250 watt RMS (3,000 watt peak) amplifier power
- Reliable Class D Energy Recovery System (ERS) switching design
- System friendly features: 12V trigger, IR repeater jack, RS-232 controllable
- Easily configured for up to TWO subwoofers
- Comes complete with remote, microphone and rack mount hardware
- Auto-EQ room bass correction to provide the best bass performance regardless of subwoofer placement

Easily configured for two subwoofers!

Digital Drive Series

Digital Drive Series subwoofers feature Velodyne's revolutionary Digital Drive room management technology, allowing you to optimize subwoofer performance for any position in any room.

- Self EQ • Auto EQ • Four preprogrammed "presets" for Action Adventure, Movies, Rock/Pop and Jazz/Classical • Individual customized EQs per preset • Defeatable low-pass crossover • Controlled by Texas Instruments computer chip • Navigation via arrows and select button on remote control • SETUP column lock • Light blink scheme for volume level and preset selection • Custom colors available for extra charge • 1250 Watt (3000 Peak) • Dimensions listed in inches HxWxD

DD-10 10" Forward Firing Woofer 11³/₄ x 11³/₄ x 13¹/₂MSRP \$2,499

DD-12 12" Forward Firing Woofer 14¹/₂ x 14 x 15¹/₂MSRP \$2,999

DD-15 15" Forward Firing Woofer 20 x 18 x 17³/₄MSRP \$3,999

DD-18 18" Forward Firing Woofer 23 x 21¹/₂ x 19¹/₄MSRP \$4,999

SMS-1

Bring the control of Digital Drive to any and all subwoofers! The SMS-1 offers all the features of the DSP-controlled industry leading Digital Drive room correction in one small case.

- Automatic or manual in-room bass correction • Full DSP control • On-screen display • 8-band digital graphic/parametric equalizer • Digital control over crossovers, slopes, equalization and volume • Full feature remote control • Customizable listening mode factory presets • A fifth customizable preset • Complete accessory pack • Night mode • **WORKS WITH ANY SUBWOOFER, REGARDLESS OF MANUFACTURER**

SMS-1 Subwoofer Management System with micMSRP \$749

SPL-R Series

Small, Precise...Loud. Simply Perfect.

The SPL-R is a subwoofer that adapts to any room's décor and acoustic anomalies with performance that leaves anything else in its class in the dust.

Velodyne

• Incredibly small and powerful • One-button 6-band auto-EQ with included microphone • Full featured remote control with 4 customized listening mode presets • DSP control • Night mode • Patented Energy Recovery System (ERS) amplifiers (2000 watts dynamic power) • Long throw drivers with inside/outside wound voice coils • Black gloss, cherry or maple available • 2 Year Warranty • 2000 Watts Peak Power • Dimensions in inches HxWxD

SPL-800R 8" Woofer 10¹/₈ x 10³/₈ x 12¹³/₁₆MSRP \$1,249
SPL-1000R 10" Woofer 12⁵/₁₆ x 12³/₈ x 13⁷/₈MSRP \$1,649
SPL-1200R 12" Woofer 14¹/₄ x 14³/₈ x 16¹/₂MSRP \$1,899
SPL-1500R 15" Woofer 18³/₈ x 18 x 17³/₈MSRP \$2,099

DLS-R Series

The DLS-R Series deliver bass the way it was meant to be heard, loud and deep with incredible impact and lower distortion.

• DSP control • Full feature remote control • Four preprogrammed "presets" for Action Adventure, Movies, Rock/Pop and Jazz/Classical • Night mode • Distortion Limiting logic/circuitry • Extended excursion vented pole-piece drivers • Built-in maximum dynamic power (MDP) amplifiers • Anti-clipping logic/circuitry • Adjustable low-pass crossover with Subwoofer Direct setting • Auto-on/off feature (defeatable) • Four position selectable phase control • Dimensions HxWxD

DLS-3500R 160 Watt (350 Peak) 15¹/₄ x 12 x 16³/₈MSRP \$499
DLS-3750R 185 Watt (375 Peak) 16 x 15 x 18¹/₄MSRP \$599

DLS-5000R 1000 Watt (1000 Peak) 21 x 18³/₈ x 20³/₄MSRP \$999

MiniVee

Big things come in small packages.

There's nothing small about the Minivee when it comes to power or performance. Music or movies, you won't find anything else that combines small size, accuracy and efficiency for such a incredible value.

• 2000 Watt Peak Amp • 8" Driver • Plays low and loud • Incredibly small, yet powerful • Easy to set up and use • 80Hz High Pass Crossover • 40Hz-120Hz Low Pass Crossover • 28-120Hz Frequency Response • Gold plated RCA line and speaker level inputs • 2 Year Warranty • Dimensions in inches HxWxD

MINIVEE 8" Woofer 10¹/₈ x 10³/₈ x 12³/₄MSRP \$999
MINIVEE10 10" Woofer 12⁵/₁₆ x 12³/₈ x 13⁷/₈MSRP \$1,249

Recommended Standards for Subwoofers

A good subwoofer should have:

- **High definition (low distortion) to create realism.**
Less than 10% is good, less than 5% is great, and 1% or less is the ultimate goal.
- **Good low frequency extension for authoritative bass you can feel.**
Below 40Hz is the target. Bass should be felt, not just heard.
- **Ample output to ensure plenty of dynamic impact and excitement.**
Match the subwoofer's size to the room's volume (see chart at right).

Consider the chart at right a guideline when selecting the proper subwoofer for the necessary application. Personal tastes in music should be considered when making subwoofer choices. In addition, the architectural characteristics of the room, coupled with the placement of the subwoofer, can affect bass performance and should be kept in mind.

Remember...Bigger is truly Better

You can always turn a subwoofer down, but there's a limit to how much you can turn it up. Two subwoofers are always better than one.

Whole Home Automation Made Simple

Take your lifestyle to a whole new level

Merge digital entertainment and control of your home into one seamless experience. Now compatible with Windows Vista, Life|ware is easier to navigate and aesthetically more appealing to homeowners.

- The home network is the backbone of Life|ware™ system from which media and automation is shared throughout the home.
- The digital entertainment center functions as the Life|ware Server, distributes digital media and connects to all the control systems.
- Through Life|ware the TV experience is the main portal into home automation and digital entertainment.
- A networked Media Center PC in the home office provides productivity, entertainment and automation.
- Xbox 360™ as a Media Center Extender brings HDTV, music, pictures and automation across the home network.
- Easily connect surveillance cameras to the Life|ware Server over wired or wireless networks.
- Security systems can be wired or wireless, with the main panel connecting to the Life|ware Server via Serial or Ethernet.
- Lighting systems can be wired or wireless and connect to the Life|ware Server through serial, USB or Ethernet.
- Media Centers share music through audio distribution systems connected to the Life|ware Server through Serial or Ethernet.
- HVAC or thermostat systems can be wired or wireless, connecting to the Life|ware Server via Serial or Ethernet.

TiVo® Series3 HD DVR

The best high-definition experience for digital cable.

A gorgeous opportunity to experience the amazing TiVo® service, the world's first, best and most intelligent digital media recorder.

TiVo Service & Technology Features:

TiVo Series3 HD DVR

- The world's first THX certified DVR, the TiVo HD DVR delivers the highest quality home theater audio-video experience
- 300 hours of standard definition recording capacity
- 25 hours of high definition recording capacity
- Easily connect to home networks with built-in Ethernet & USB ports
- Record 2 live digital cable channels at once, while playing back another previously recorded channel
- Outputs: HDMI, Component Video, Digital Audio, S-Video, Composite Video and Stereo, Ethernet, 2 USB, 2 CableCARD slots
- TIVO3..... MSRP \$799

TiVo Home Movie Sharing

Enjoy making home movies of your kids, spouse, and road trips? Share the footage with family and friends across the country on their TV! Rather than going through the lengthy process of burning and mailing DVDs, or viewing videos on a computer, TiVo provides a private channel for family and friends to share photos and videos on their TV set.

**Broadband Internet connection necessary.*

TiVoToGo

Take TiVo along for the ride! Send TV programs (non-HD only) recorded on a TiVo box to a networked computer or laptop, or transfer a personal playlist of videos to your handheld device. Owners can even set the TiVoToGo software to search overnight for new episodes and automatically load them into their portable player by morning.

TiVoToGo software plays non-HD content, works with both Mac and Windows computers and is currently compatible with the following portable devices:

- Apple iPod
- Creative Zen
- Nokia n80
- Palm Treo
- Playstation Portable (PSP)
- Toshiba gigabeat
- Vision:M

At this time, TiVoToGo is not supported by the Series3. Please ask about other TiVo units available.

TiVo Mobile

Verizon Wireless customers can now see what's on TV and schedule TiVo recordings from their cell phone, and it's just as easy to use as your TiVo box at home! TiVo Mobile, a brand-new application from Verizon Wireless, lets you see what's on TV, and schedule TiVo recordings from almost anywhere.

Amazon Unbox on TiVo

The Amazon Unbox video downloads store has thousands of DVD-quality TV shows, movies, and more for you to purchase or rent. Mitsubishi home theater projectors include models for dedicated spaces or for those whose projector screen is in a space that doubles as family, multimedia rooms, or living rooms. You can mount them with a permanent ceiling or wall bracket or sit them on a tabletop.

These projectors are optimized for the home theater enthusiast. They can bring a high-definition entertainment experience to your home in native 16:9 format, with quiet operation suited to home theaters.

You can get a lot more video quality for your dollar than you think...

Surprisingly affordable, these projectors are increasing in color and image performance, but decreasing in cost for home theaters to within reach of even budget-conscious consumers.

New Evolution in Home Control

Logitech Harmony Learning Remotes

Harmony 1000

The latest and most intelligent evolution of simple, one touch control. The essential center of your entertainment center.

One-touch simplicity at it's best — simply touch the "Watch a DVD" icon and the 1000 power on your TV, DVD player, stereo receiver, sets all the inputs, and even presses play!

Computer based set up — connect the 1000 to your computer, and the wizard guides you through the entire set up. Respond to a few basic questions, and the technology does the rest.

IR and RF Communication — when used with the RF Extender (at right) the 1000 will control devices inside cabinets and through walls.

3.5" Touch Screen with large, colorful icons delivers an entirely new level of ease and functionality. Universal control (over 5,000 brands)

Rechargeable lithium-ion battery

LOGITECH HARMONY1000MSRP \$499

RF Extender

Gain complete control of components that are hidden behind cabinets or walls. With a range of up to 100 feet, you can place your equipment out of sight, or even move it to the next room. Wishbone Cantilever

Wishbone cantilever mounts are a breakthrough in flat panel mount design, combining strength, easy installation, cable management & striking product design that is unparalleled in the industry.

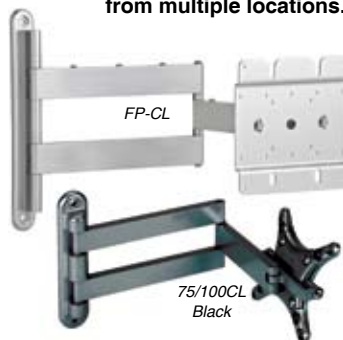

Wishbone design adds strength • Lift n' Lock for easy installation • Double stud wall plate for strength & stability • Easily maneuver viewing for any angle • UCL-L & UCL-X include mount and self-centering adapter plate for universal application • Black or Silver

CL-S.....	MSRP \$149
CL-M.....	MSRP \$249
CL-L.....	MSRP \$349
CL-X.....	MSRP \$399
UCL-L.....	MSRP \$449
UCL-X.....	MSRP \$549

Standard Cantilever

Cantilever arm allows extension and 180° lateral rotation for viewing from multiple locations. Allows tilt & swivel of flat panel for optimum viewing angle.

Tilt & swivel to view from any angle • Durable powder coat finish • VESA compliant • UCL consists of Plasma CL & PLAD-UM1 universal adapter • Black or Silver

75/100 CL.....	MSRP \$99
FP-CL.....	MSRP \$199
UCL.....	MSRP \$399

Fixed Mounts

Fixed Mounts feature an exclusive installation template & Lift n' Lock for the easiest and most universal install in the industry.

• Low-profile mounting • Sliding lateral on-wall adjustment • Rail extension available for flat panels up to 63" • Black or Silver

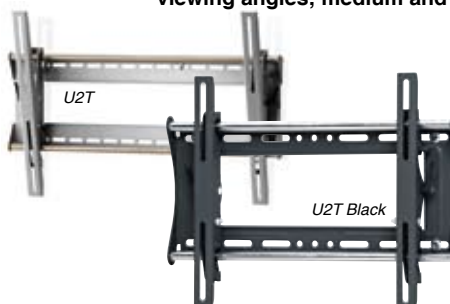

U2F 23"-37".....	MSRP \$99
U3F 37"+.....	MSRP \$149

Tilt Mounts Tilt mounts have all the features of the fixed mounts and more. Tilt tension levers allow for 15° tilt for multiple viewing angles; medium and large mounts also tilt 5°.

• Universal mounting rails with tilt • Sliding lateral on-wall adjustment • Chrome-plated support rods for horizontal adjustment • Integrated flip lock for the ultimate security • Black or Silver

U2T 23"-37".....	MSRP \$129
U3T 37"+.....	MSRP \$249

Projector Mounts

PMD Projector Mounts are flexible, easy to install & adjust, and feature built-in pitch & tilt adjustment controls.

• Universal mounting grid • Two-piece, slide-together mount • Security hardware provided accepts padlock

PMD-1.....	MSRP \$149
PMD-2.....	MSRP \$199

• Universal mounting grid • Wall mount for projectors • Lateral rotating arm supports up to 80lbs. and extends 15" from wall

PMD-WM.....	MSRP \$39
PWM-PMD.....	MSRP \$TBA

Swivel Mounts for Home & Office

Swivel Mounts provide additional options to the homeowner for whom a wall mounted television is impractical. The swivel mount also adds versatility to existing AV furniture.

• 360° swivel rotation • Low-profile designs for units ranging from 13" to 27" • Optional component box configuration available (see below) • Tabletop swivels come in black or Platinum • Workspace model is clear and platinum

DMS-1 Workspace Series.....	MSRP \$39
TVSV13 Tabletop Swivel.....	MSRP \$24
TVSV21 Tabletop Swivel.....	MSRP \$29
TVSV27 Tabletop Swivel.....	MSRP \$39
TVSVB21 Swivel w/ component box ...	MSRP \$49
TVSVB27 Swivel w/ component box ..	MSRP \$59

TVSVB21 Platinum Tabletop swivel w/ Component box (available in black)

The development of this premiere AV solution results from Belkin's 20-plus years of leading-edge experience in digital connectivity and power protection.

PURE | AV™

by Belkin

Power Consoles

The PureAV power protection line improves the home theater experience by eliminating problems before they reach audio video components. Common power disturbances and AC line noise degrade the quality of everything heard and seen — Belkin PureAV eliminates these disturbances.

• PF30 • 8 outlets with Phase 3 PureFilter Circuitry • Isolated audio, video HiCurrent filters

Hi-Wirez HDMI Cable Superior HDMI specializing in higher resolution images, specifically 1080p

Why ViZionWare Hi-Wirez instead of the Other Guy?

Although HDMI is digital at the source output and the display input, the typical HDMI cable linking the two is still a passive, analog cable with inherent shortcomings. Even so-called "high end" cables suffer from these limitations. These other cables simply do not provide an optimal link allowing high performance digital sources to deliver the full potential of HD video content to the digital display.

VizionWare has developed and applied a patented core silicon technology to create the next generation of active, digital interconnect products. Amongst other things, ViZionWare Hi-Wirez cables:

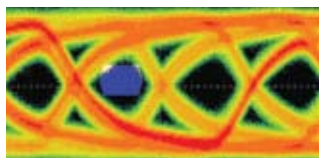

- Boost higher, noise-susceptible frequencies minimizing signal loss, maintaining proper signaling levels and allowing for longer and lighter-weight cables (see right)
- Utilize signal balancing circuit techniques to provide unsurpassed viewing clarity
- Minimize signal coupling into shielded structures, as well as device impedance mismatches
- Implement advanced coding techniques reducing the spectral energy induced by the horizontal and vertical synchronizing coding symbols (see below)

...and yet affordable.**

Home Theater Warranty

Designed so that one plan covers an entire home theater system, and multiple plans can be combined for those high-end installs. Coverage begins on the date of purchase and is inclusive of the manufacturer's warranty. This plan provides for a technician to pull the defective unit from the system (provision: unit must be accessible – technician will not disassemble custom casings or walls) and send it to an authorized service center for repair. Once the defective unit has been repaired the technician will reinstall the unit – provisions apply. All components of the system may be covered, except for wiring and installation.

Five Year Coverage

A-RMH52500	Under \$2,500	\$159.99	Carry-In

How Does Coverage Work?

We understand that warranty programs can be confusing, so we've summarized the "nuts and bolts" most customers want to know.

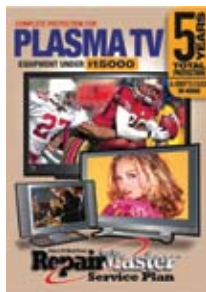

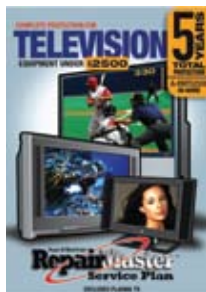

- 1) After purchasing a warranty, the plan must be registered by the owner. This can be done online at www.myrepairmaster.com or over the phone by calling (800) 272-7726.
- 2) If your product(s) need repairs, call the same toll free number and get a pre-authorization. Have your product receipt handy for faster service.
- 3) Once your repair work is authorized, a Repair Master customer service agent will provide you with the contact information for the nearest authorized repair center.
- 4) All warranty contracts are transferrable if ownership happens to change.
- 5) If the product cannot be repaired, it will be replaced.

Exchange Card

Xchange Cards may be sold on any product with a battery or cord. Coverage begins at the conclusion of the shortest portion of the manufacturer's warranty. In the event your product suffers a mechanical or electrical defect in the year following the expiration of the shortest portion of manufacturer's parts and labor warranty, this Plan will replace the defective product with a product of equal or similar features and functionality, though not necessarily the same brand. A replacement part or product may be new or refurbished. The Plan is limited to one replacement during the lifetime of the plan.

One Year Coverage Extension

Item#	Coverage	MSRP	Service Location
A-RMX200	Under \$200	\$19.99	Carry-In
A-RMX400	Under \$400	\$39.99	Carry-In
A-RMX500	Under \$500	\$49.99	Carry-In
